## SUMMARY

BTech IT graduate skilled in **SQL, Power BI, Web Development, Java (DSA), Excel, DBMS**, and **data handling**. Adept at problem-solving and data analysis, seeking an entry-level role to apply technical expertise, support data-driven decisions, and grow in a dynamic organization

---

## INTERNSHIP

### Frontend Intern, Reway

May 2023 - June 2023

- Assisted in developing and maintaining responsive web interfaces using **HTML, CSS, JavaScript**, and **React**, ensuring a seamless user experience.
- Collaborated with senior developers to implement **UI/UX designs**, **optimize** website performance, and **fix frontend bugs**.
- Gained hands-on experience with **version control** (Git) and contributed to code reviews and testing for improving frontend quality.

---

## EDUCATION

### Bachelor of Technology (GGSIPU)

Aug 2021 - July 2025

### Bhagwan Parshuram Institute of Technology

- Specialization in **Information Technology**.
- Developed a full-stack web application using **React** (frontend) and **Flask** with **SQLite** (backend) to manage faculty records, research details, and examination data.
- Implemented role-based access and **CRUD functionalities**, improving efficiency in academic data management.
- Designed a responsive platform for property listings, searching, and booking using **React** with user authentication and review system.
- Enhanced usability by adding advanced search filters and an admin dashboard for property management.
- Created a **database-driven quiz** application enabling students to test their **DBMS** knowledge.
- Utilized SQL and data handling techniques to store and evaluate quiz results, achieving **first place in a college-level project competition**.

---

## ADDITIONAL INFORMATION

- **Languages:** java, python , c++, sql
- **Certifications:** DSA from coding Blocks, Frontend Intern(Reway)
- **Awards/Activities:** Research paper published (IJSCSEIT), Won DBMS quiz.
